PROJECT SUMMARY

Please provide a 100-word summary of the project's objectives, significance, and expected outcomes.

PROJECT DESCRIPTION

1) BACKGROUND

Provide a brief background to the project, describing why it is important and timely.

2) AIMS AND SIGNIFICANCE

Describe the project's aims and significance and how the project aligns with the objectives of the Australian Flora Foundation.

3) APPROACH AND METHODS

Provide a description of the project's general approach as well as details of the study design, location, and methods.

4) FEASIBILITY

Provide evidence of the investigators' capability to undertake the proposed research and deliver on the objectives (including relevant experience, relevant publications, reports and conference presentations, and facilities available). If part of a student's project, please provide details of how the proposed project aligns with the thesis topic and how AFF funding will enable additional work not otherwise possible.

PROJECT MANAGEMENT

5) INVESTIGATOR(S)

Attach a 2-page CV summarising the lead investigator's qualifications, experience, and previous research. Student lead applicants should attach their CV and also their supervisor's CV.

6) DATA MANAGEMENT AND COMMUNICATION

Describe how the data from the project will be managed and your communication strategy.

7) BUDGET

Provide a detailed list of requested budget items, under the headings Personnel, Consumables & Travel, and Equipment. Include details such as hourly salary rates for personnel, km for field work at what rate, cost of analyses per sample, etc. Only direct research expenses (plus any associated GST) are allowed; on-costs and administrative charges are not allowable. Note that Reed Grants may run for up to **three years**, with a maximum amount of \$ 30,000 in any one year, and Small Grants for up to **two years**.
